

REDACTED - FOR PUBLIC INSPECTION

LINE 510 - SERVICE QUALITY STANDARDS AND CONSUMER PROTECTION RULES COMPLIANCE

Lipan Telephone Company complies with applicable service quality standards and consumer protection rules for its voice and broadband services.

The rates, terms, and conditions under which the Company operates are outlined in its local exchange tariff, which is approved by the Public Utility Commission of Texas ("Texas PUC"). The tariff contains provisions regarding the Company's customer service and protection practices.

Service quality standards for voice service are established by the state commission. The Company consistently meets or exceeds those standards and provides reports to the state commission, in accordance with the state commission's rules.

With regard to broadband service, the Company provisions its network and equipment to ensure that its customers can enjoy the speeds to which they subscribe. However, Internet speeds generally result from a "best effort" service and are dependent upon a number of variables, many of which are outside the control of the Company.

The Company complies with any and all consumer protection obligations under state law.

The Company also complies with the following consumer best practices: (1) the Company discloses its rates and terms of service to customers; (2) the Company provides specific disclosures in its advertising; (3) the Company separately identifies carrier charges from taxes on its billing statements; (4) the Company provides ready access to customer service; (5) the Company promptly responds to consumer inquiries and complaints received from government agencies; and (6) the Company abides by policies for protection of consumer privacy.

Finally, the Company has a policy and established operating procedures that comply with the FCC's Customer Proprietary Network Information (CPNI) rules (47 C.F.R. §§64.2001-64.2011). Certification of the Company's compliance with CPNI rules and a description of the Company's operating procedures that ensure compliance are filed annually with the FCC.

LINE 610 - ABILITY TO FUNCTION IN EMERGENCY SITUATIONS

Lipan Telephone Company is able to function in emergency situations for both voice and broadband service. The Company has a reasonable amount of back-up power to ensure functionality without an external power source. Standby power generators are supplied at the central office, remote switch sites, and repeater sites to ensure functionality without an external power source until power is restored. The network is capable of managing traffic spikes resulting from emergency situations.

The Company is able to reroute traffic around damaged facilities. Although the Company's ability to reroute traffic around damaged facilities is not absolute and may be limited in certain circumstances, there is a restoration plan in place for expeditious recovery of service, including splicing of damaged facilities when warranted.

LINE 1010 – VOICE SERVICES RATE COMPARABILITY

The Wireline Competition Bureau's most recent reasonable comparability benchmark for voice services is \$47.48, which includes the federal subscriber line charge ("SLC").¹

In the exchanges served by Lipan Telephone Company the highest single-line residential local rate, including any mandatory extended area service charge, is \$16.00. When the federal SLC and the state universal service fee are added, the total is below the reasonable comparability benchmark of \$47.48.

¹ *Wireline Competition Bureau Announces Results of 2015 Urban Rate Survey for Fixed Voice and Broadband Services and Posting of Survey Data and Explanatory Notes*, WC Docket No. 10-90, DA 15-470 (rel. April 16, 2015), p. 1.

LINE 1210 – TERMS & CONDITIONS OF VOICE TELEPHONY LIFELINE PLANS

Lipan Telephone Company (the Company) offers qualified Lifeline subscribers a discount of \$12.75 (comprised of the federal discount of \$9.25 and a state discount of \$3.50) to a stand-alone residential local exchange service line rate.

In all exchanges served by the Company, the Lifeline rate for single-line residential voice service, including any mandatory extended area service charge and the federal subscriber line charge, is \$9.75 (\$22.50 less the \$12.75 discount).

The local exchange service rate includes an unlimited number of local calling minutes. Additional charges for toll calls associated with the residential local exchange service are billed at the rates of the long distance carrier chosen by the subscriber. Lifeline customers may subscribe to packages and custom calling features at the standard rates offered to all customers, in which case the Lifeline discounts will apply to the portion of the package that is for a stand-alone basic local exchange service line. The attached pages from the Company's Local Exchange Tariff include the terms and conditions for Lifeline Service.

LOCAL EXCHANGE SERVICE

VII. LIFELINE PROGRAM

The Lifeline Program is a retail local service offering designed to make telephone service available at reduced rates to qualifying low-income customers.

A. General

1. A qualifying low-income customer subscribing to the Lifeline Program shall receive federal and state reductions to their monthly tariffed residential local exchange access line rate. When a Lifeline customer subscribes to a package of services, those same reductions will apply to that portion of the package rate that is for basic network service. In a two-line package, only one line will receive the Lifeline reductions.
2. Nothing in this section shall prohibit a customer who is otherwise eligible for the Lifeline Program from obtaining and using telecommunications equipment and services designed to aid such customer in utilizing qualifying telecommunications services.
3. Lifeline Program reductions do not apply to surcharges, taxes, long distance service, 976 and other information related telecommunications services, and optional services such as custom calling features. Customers may obtain these services, where available, at their discretion.
4. The Lifeline Program rate reductions do not apply to service connection charges.

A. General (Continued)

5. The Company may not disconnect the service of a Lifeline Program customer for the non-payment of toll charges. However, the Company reserves the right to implement toll blocking, at no charge, if the customer incurs a significant balance of unpaid toll bills. The Company will inform the customer, by direct mail, of this change to their service due to the customer's non-payment of toll charges. Upon the customer's payment of all outstanding toll charges, the Company shall remove mandatory toll blocking at no charge. T
6. Upon subscribing to the Lifeline Program, a customer will be offered a subscription, at no charge, to toll blocking service (in exchanges where technically available) which denies the customer access to the long distance telecommunications network; however, the customer is under no obligation to accept the subscription to toll blocking upon initial subscription to the Lifeline Program. T
7. The Lifeline Program rate reductions will not be available on a retroactive basis unless approved by the Public Utility Commission of Texas or the Low-Income Discount Administrator (LIDA). T
